RE: NJ Transit Ampere Train Station Revival

The Township of Bloomfield would like to express our support for the restoration of the Ampere Train Station, formerly known as the Crescent. It is currently not in operation and in need of repair and refurbishment. This train station is ideally located to serve the needs of Newark, Bloomfield and East Orange.

We hope that NJ Transit takes into consideration the positive impact the reopening would have on the residents of these three communities. It is a unique opportunity to revitalize this area and provide greater access to affordable transportation to residents and businesses. We join in support all those that have signed the Ampere Train Station Revival Petition in asking that NJ Transit refurbish and reopen the Ampere Train Station.

Thank you for your time and consideration.

Sincerely,

Michael Venezia
Mayor
